

Restoration Colors

These are a few of the most popular of the over 1200 color matches in our restoration formula library. All samples shown are **Custom SYSTEM 45**. Corresponding colors are available for many of these standards in **ELASTOWALL 351**, **AQUATHANE UA-210H** and **SYSTEM 90-II & 90-W**. Custom color matching service is also available. Color chart accuracy is limited by the printing process. Always check actual product samples or apply test patches before final selection and application.
